INSTALLATION INSTRUCTIONS

HOW TO SET-UP:

1. Grasp the bottom of the diamond shaped area of trusses on opposite sides by the "open" sticker. Lift up and step backwards until shelter is fully opened, being careful not to pinch fingers.
2. Engage the Auto Slider® at each corner by pushing up with one hand while holding down the top of the leg with the other hand. The pull pin will engage the hole. Then pull down the hem of the top. Repeat at all four corners.
3. Lift two adjacent outer legs up 1" and slide out the inner legs until the snap button locks. Repeat on the opposite legs - make sure to do two legs at a time.

HOW TO TAKE DOWN:

1. With partner, slightly lift up two adjacent outer legs 1", depress snap button and telescope inner legs into outer legs. Repeat on the opposite legs - making sure to do two legs at a time.
2. Release pull pin at each corner by first lifting valance fabric away from slider. With one hand hold the top of the leg while pulling the pin out to release.
3. Grasp the top diamond on opposite sides by "close" sticker. Lift the shelter up slightly and shake it while stepping towards your partner until the unit is 3/4 closed. With each partner grasping two outer legs, push frame together to fully close it - Be careful not to pinch fingers. Store shelter in roller bag.
