# ICE SHAVER MACHINE

## PARTS

- Ice Shaver Unit
- Foot Switch

## OPTIONAL ITEMS

- Heavy Duty Extension Cord (10-12 Gauge / 50' or Less)
- Block(s) of Ice Broken into 2-3 inch pieces OR Ice Cubes
- Snowcone Syrup  
-Check with salesperson on availability and flavors
- Pump for Syrup
- Snowcone Cups (6 oz)
- Spoons
- Napkins

## REQUIREMENTS

- 120 Volt / 7.5 Amps Power Source
- Level Table / Surface

## CLEAN-UP

- Turn off Power
- Unplug unit from the power source.
- Remove any remaining ice.
- Wipe away any water.

Sample Photo / Actual Ice Shaver Style May Vary.

## OPERATION INSTRUCTIONS

1. Allow ice soften 1 hour. Using ice straight from the freezer affects the quality of the shaved ice and can damage the shaver blade.
2. Place Ice Shaver on a sturdy / level table.
3. Plug the unit into a power source.
4. Lift cover lid and evenly load ice cubes into the hopper to within 1/2" of the top
5. Close the lid and turn the Main power switch ON. Note: Machine will not operate unless cover lid is closed.
6. Hold snow cone cup directly under the ice chute and press down on the foot switch. Release foot switch to stop ice shaving
7. To adjust the texture of the ice, use the blade adjustment knob.
8. Turn power switch off when machine is not in use

## Ice Capacity

- 3.3 lbs of ice (in 2-3" pieces)
- Estimate 1/3 - 1/2 pound of ice per cone

Volume # 2022-A  
Document Property of  
Diamond Event, Inc

## HELPFUL HINTS

Do something special and consider adding the following items to your shaved ice to make them something special!

- Condensed Milk or Coconut Milk
- Fresh Fruits
- Chocolate Syrup
- Vanilla Ice Cream

Turning the adjustment blade clockwise will give you a finer texture, counter clockwise will give you a course texture

## TROUBLE SHOOTING

- If you have any problems or concerns, please call your local Diamond Event Party Location.
